

# Ionic ♥ Push

14-12-2016  
Pieter Beekman

 @PieterBeekman

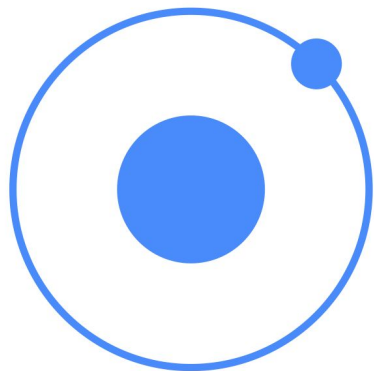

Frontend developer @ Incentro

*“Een pushbericht is een kort bericht dat op het scherm van de telefoon getoond wordt. Ook al heeft de gebruiker de app niet eens open, hij krijgt het bericht direct te zien”*

Heel veel opties...

TERADATA

ONE SIGNAL

Pushover

**URBAN AIRSHIP**

## **Gratis versie (starter)**

- Tot 1000 members

## Add Google Cloud Messaging (GCM) API key

See the [GCM Setup documentation](#) for detailed instructions on obtaining your API Key.

API key

AlzaSjDqC7-MgRE7e-T3gjmZ-YTE0LgWh...

Package

com.ionicframework.pushemow384108

**Save**

or cancel

You must add certificate or API key for at least one platform to send message.

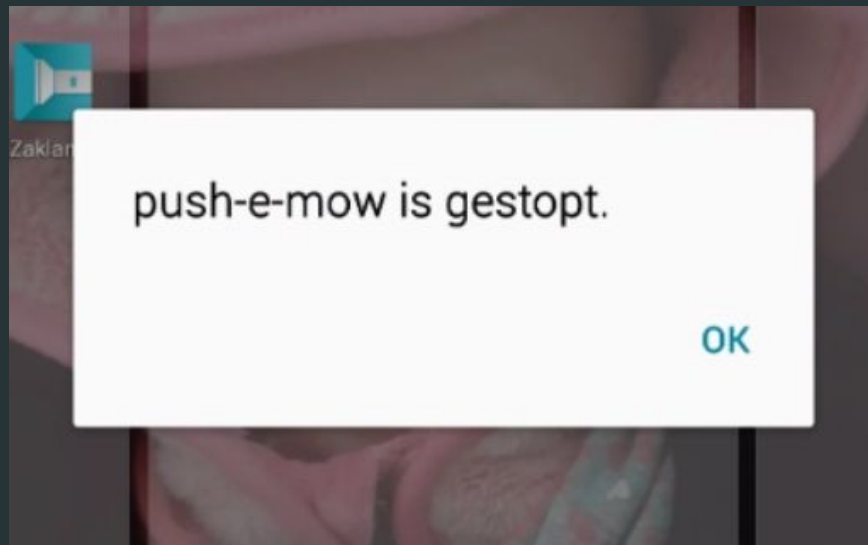

# Cordova plugin installeren

We have created your `airshipconfig.properties` pre-populated with your Urban Airship app key and secret. The contents of this file are shown below:

```
developmentAppKey = m0qEIFcv[REDACTED]  
developmentAppSecret = YnB_lDdIT[REDACTED]  
  
productionAppKey = Your Production App Key  
productionAppSecret = Your Production Secret
```

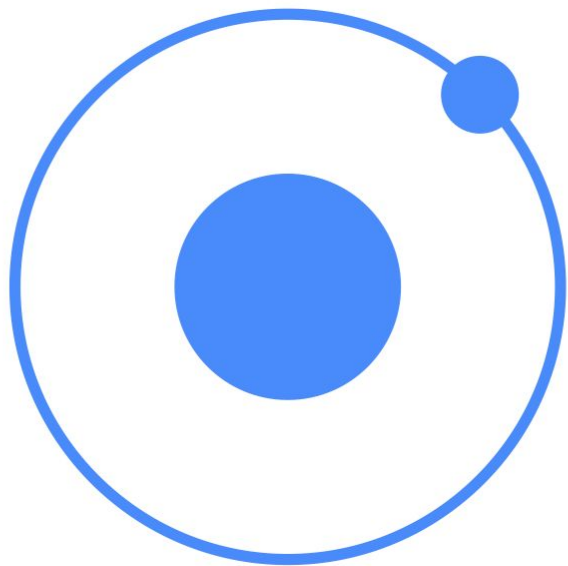

# Let op de config.xml...

# In App code / demo

- In-/uitschakelen push berichten
- Abonneren op categorie
- Pushbericht met artikel ID
- Extra opties in UA

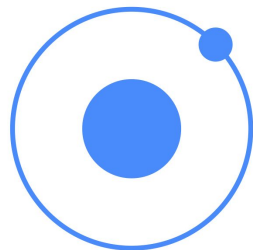

**ionic.io**

**same**

# Kosten/mogelijkheden Ionic.io

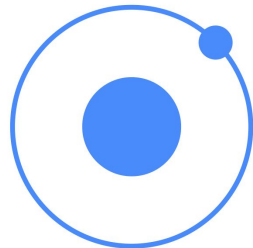

## Indie

- Gratis
- Tot 10.000 berichten per maand
- Target pushes
- Statistieken

## Production

- \$20,- per maand
- Tot 1.000.000 berichten per maand
- +1000 berichten = \$0,08

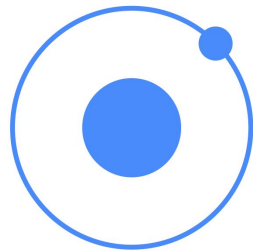

# Installeer ionic.io

```
$ npm install @ionic/cloud --save
$ ionic io init
```

```
$ionicCloudProvider.init({
  "core": {
    "app_id": "APP_ID"
  }
});
```

# Installeer Cordova plugin

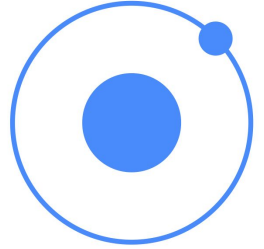

```
$ cordova plugin add phonegap-plugin-push  
  --variable SENDER_ID=12345 --save
```

(SENDER\_ID = FCM Sender Id)

# In app code / demo

- Ionic Push omgeving
- In-/uitschakelen push berichten
- Pushbericht met artikel ID

# Thanks!
